EXPERIENCE

St. John's University School of Law | Queens, NY **Apr 2026 – Present**

IT Student Worker

- Resolve more than five IT support tickets weekly by phone and email for faculty and students.
- Troubleshoot multifunction printers and peripherals to support daily operations at the School of Law.

TechX | Remote **Jun 2025 – Aug 2025**

Data Engineer Intern

- Developed a Python music recommendation system using NLP to personalize recommendations from a 200-song Spotify catalog.
- Collaborated in Agile sprints, managed changes with Git, and participated in code reviews and project demonstrations.
- Researched generative AI tools for improving user experience and automating workflows.

NeuralSeek | Miami, FL **Jun 2025 – Jul 2025**

AI Agent Builder Intern

- Built mAIstro, a RAG academic assistant with document ingestion, context retrieval, and source provenance highlighting.
- Iteratively refined agent context handling and responses with attention to ethical AI practices.

PROGRAMMING PROJECTS

IntellectFlow | Python, LangGraph, FastAPI **Jun 2026 – Present**

In Development | github.com/EvansCortez/IntellectFlow

- Designing a LangGraph multi-agent system for AI code review and security auditing, coordinating specialized agents through an orchestration layer.

Portfolio Website | TypeScript, Next.js, React, Tailwind CSS **May 2026 – Present**

Personal Web Application

- Built and published a responsive Next.js 16 portfolio using TypeScript, modular React components, and Tailwind CSS.
